## Physiology

**Gwisins** are a little taller than a [dwarf](#) or a [gnome](#), with extremely long pointed ears, pale skin ( but not as transparent as that of one of its progenitors ) slit elf eyes ( for its [Aen Agde](#) inheritance ) and a great beauty.

Because of their [Sverg](#) heritage, the **gwisins** are very talented at manipulating [The Chaos](#). The great mages of [Buyan](#) and Ultari, are said to have some **gwisin** ancestor or master.

Culturally, they are one of the most conservative and closed cultures in the [Far East](#). Even surpassing in certain aspects, the Okamese culture and compared to other cultures in general, even surpassing certain [Barsamen](#) traditions.

There's an ofiri expression that sums it up very well: *"Before you marry a [barsawoman](#), spend time with a **gwisin**"*

It's known that they are ruled by an Elder. Which has a similar function to the [Mahakam](#) of the [dwarves](#) and an [elven sage](#) combined.

Other non-humans from other Feiwo kingdoms mock them by saying they are miniature elves.
